#### Wharton Dual Language Academy's Guiding Principles

- Bilingualism, bi-literacy, and biculturalism are at the core of our school. Our mission is
  to have all of our students master both Spanish and English by the time they exit
  our school.
- Our students experience strong academics through inquiry based teaching and learning that are linked with real world experiences and lead to student initiated action.
- We believe that 21<sup>st</sup> century, global classrooms should allow for critical thinking, collaboration, communication and creativity.
- Our school must be a safe place for our students and staff, both physically and emotionally.
- Our learning environment needs a media center that includes a traditional library area and the flexibility to accommodate emerging technologies to prepare students for the 21st century workforce.
- Students and teachers need flexible learning areas including spaces for working individually, collaboratively with spaces for presentations and outdoor learning spaces.
- Early childhood areas should reflect the needs of young children.
