Bond Program Oversight Committee Charter

PURPOSE OF CHARTER

The Board of Education (“Board”) for the District desires to make continual improvements to existing programs. As a result, the Bond Program Oversight Committee Charter (“Charter”) is adopted to explain the mission, purpose, structure, membership, duties, responsibilities, and expectations. This Charter supersedes the previously adopted charter dated August 30, 2010.

COMMITTEE MISSION

The HISD Board, in response to community interest in the effective and efficient use of bond proceeds, has established a mechanism to encourage greater accountability, transparency, public support, and confidence by creating the Committee. The Committee is an independent citizens’ Committee that is responsible to the Superintendent, Board, and general public (in that order).

The Committee’s charge is to monitor all applicable Bond funded construction projects and help interested Houstonians to stay informed about new construction and renovation projects in the District. Its purpose is to monitor performance and compliance in order to confirm that HISD implements Bond Program work in conformance with the program approved by the Board and make recommendations to maximize available resources to achieve construction goals in the most effective and cost efficient manner. Its focus should be oversight rather than limited to hindsight.

COMMITTEE STRUCTURE AND MEMBERSHIP

- a) The Committee has up to nine voting members, including a Chairperson and Vice Chairperson, who are appointed by the Superintendent. Formal action from the Committee requires a majority vote of the quorum present. Individual members of the Committee shall not exercise authority for the Committee as a whole and shall not act independently of the Committee. Written applications will be reviewed by members of the District’s Executive Leadership team for each applicant’s experiences and qualifications. The Executive Leadership team will submit recommendations to the Superintendent for approval and appointment to the Committee.
- b) Appointments will be staggered for one year and two year terms. Terms may be extended for additional one or two year terms upon approval by the Superintendent.
- c) The Committee will approve meeting minutes, review and approve the reasonableness of reports from the District, and approve the issuance of status reports and other communications from the Committee.
- d) All meetings will be open to the general public.
- e) Membership on the Committee shall consist of interested persons from the following groups who can remain objective and independent with the District’s best interest at heart:
 1. Special preference for members with expertise or knowledge in the areas of building design/engineering, construction, construction project management, and/or finance.
 2. Members active in a business organization representing the business community located in the District.
 3. Members who are parents or guardians of a child enrolled in the District and also active in a parent-teacher organization.
 4. Members of the community at-large.

- f) The Committee members receive no direct or indirect compensation from the District for their services as members of the Committee.
- g) The Committee members may not have an active contract or be seeking a contract with the District or with any contractor or sub-contractors associated with the Bond Programs.
- h) The Committee may not include any employee or official of the District, or any vendor, contractor or consultant of the District.
- i) A Committee member serves the general interest of the public as opposed to any personal interest or special interest group.
- j) If a Committee member moves outside of the District's geographic boundaries, resigns, violates the Ethics Policy contained herein, fails to attend two consecutive Committee meetings without reasonable excuse, or otherwise becomes unable to serve on the Committee, the Superintendent may declare the position on the Committee to be vacant and appoint another qualified person to the Committee.

COMMITTEE DUTIES AND RESPONSIBILITIES

The Committee shall inform the Superintendent, Board, and general public (in that order) concerning the District's overall project management of all Bond Programs, including but not limited to:

- a) Review periodic reports produced by the District to verify effective and efficient use of bond proceeds and compliance with the purposes set forth in the Bond Programs as approved by the Board. See reports issued by the District in the "District Duties and Responsibilities" section below.
- b) Ensure that bond revenues are expended for the purpose set forth in the Bond Programs as approved by the Board of Education, and that any deferred proposals or plans where considered necessary are appropriate.
- c) Validate that no bond funds are used for any teacher or administrative salaries or other school operating expense, other than administrative salaries whose primary purpose is to manage the District's Bond Programs.
- d) Review efforts by the District to maximize bond revenues by balancing best value, quality, and efficiency in meeting the District's goals and priorities.
- e) Evaluate risks and related controls associated with the District's Bond Programs, determine focus areas and strategic approach to review, and communicate any findings and recommendations for improvement via a periodic independent report to the Superintendent, Board, and general public. To maximize these efforts, the Committee may recommend the performance of specific audit projects based on its risk assessments and communications to the Board Audit Committee and HISD Office of Inspector General.
- f) Coordinate with the Superintendent's designee to visit District facilities and grounds for which bond proceeds have been or will be expended, in accordance with any necessary access procedures.
- g) Review copies of other bond reports published by the District.
- h) Review any performance audits of the District's Bond Programs to ensure the District is taking appropriate action to remediate any deficiencies identified in such reports.
- i) Review operational audits conducted by the HISD Office of Inspector General to ensure the adequacy of scope, management action plans, and remediation efforts of the District.
- j) Review any financial audits of the District's Bond Programs to ensure the District is taking appropriate action to remediate any deficiencies identified in such reports.
- k) Provide periodic status reports and an annual report regarding the results of its activities, in addition to any Committee findings, recommendations, and management action plans, to the Superintendent and Board. These reports should include the Committee's opinion regarding the District's remediation efforts for any recommendations included in the performance audits, operational audits, or financial audits mentioned above and will be made available to the general public by inclusion on the District's website and other communication avenues.
- l) Perform other reasonable duties requested by the Superintendent.
- m) Disclose and sign an annual conflict of interest statement for existing conflicts and re-submit if any conflicts arise during a Committee member's tenure.

- n) Any perceived allegation of wrongdoing; potential waste, fraud, misuse or abuse; or non-compliance with Local, State, Federal laws/regulations, or District policies that becomes known to the Committee shall be communicated to the Superintendent, who shall refer such matters to the Board, Ethics and Compliance Officer, Office of Inspector General, and outside legal counsel where appropriate.

The Committee provides counsel and input to the administration and the Board, but it does not have management or policy-setting responsibilities. Also, the Committee does not have a fiduciary responsibility to the District or Board, nor are its members personally liable to the District or Board. The Committee is not responsible for:

- a) Approval of construction contracts or change orders;
- b) Appropriation of construction funds;
- c) Handling of legal matters;
- d) Approval of construction plans and schedules;
- e) Approval of the District's maintenance plan;
- f) Approval of the sale of bonds;
- g) Establishment of priorities and order of construction for the bond projects;
- h) Selection of architects, engineers, construction managers, project managers, and such other professional service firms;
- i) Approval of the design for each project including exterior materials, paint color, interior finishes, site plan and construction means or methods;
- j) Selection of independent audit firm(s), performance audit consultants and such other consultants as are necessary to support the performance of the Bond Programs;
- k) Setting or approving schedules of design and construction activities;
- l) Investigations of alleged wrongdoing; potential waste, fraud, misuse or abuse; or non-compliance with Local, State, Federal laws/regulations, or District policies.
- m) Directing the activities of staff or consultants; or
- n) Activities, roles or responsibilities that have been delegated to staff or consultants by the Superintendent or his designee.

COMMITTEE MEETINGS

- a) The Committee shall meet at least quarterly to review the District's Bond Program's status and related information, and to perform other duties as provided herein. The Superintendent, Chairperson, or Vice Chairperson may convene additional meetings, if necessary.
- b) All Committee meetings shall be held within the District's geographic boundaries.
- c) Minutes will be prepared by a representative of the District and will be distributed to the Committee within 15 business days. The minutes will be voted upon for the record at the next scheduled Committee meeting.

DISTRICT DUTIES AND RESPONSIBILITIES

- a) The Chief Operating Officer shall act as the Superintendent’s designee to the Committee.
- b) The Superintendent or his designee shall oversee management’s action plan to respond to any written report from the Committee with findings or suggestions for improvement within 15 business days. All recommendations and management action plans from inception to date will be tracked and made available to the Committee and Board. The District’s website and other communication avenues will also publicize the Committee’s report and management’s action plan for use by the general public.
- c) The District shall have a commitment to the Committee, provide open communication, and provide necessary technical and administrative assistance in a timely fashion as follows:
 - 1. Provision of a meeting room, including any necessary audio/visual equipment;
 - 2. Preparation and copies of any documentary meeting materials, such as agendas and reports; and distribution of those materials to the Committee in a timely manner;
 - 3. Provision of a quarterly summary progress report covering the Bond Programs;
 - 4. Access to other information to effectively perform its oversight function.
 - 5. Retention of all Committee meeting records, and providing public access to such records on the District’s website; and
 - 6. Notify the public of Committee meeting times and locations. The meetings are open to the public.
- d) Summary progress reports will communicate and provide an explanation for the following attributes in a clear concise manner. As part of reporting, HISD will identify projects that experience a significant impact to schedule, budget, or scope of work. Detail reports can be provided upon the Committee’s request.
 - 1. Project schedules with anticipated completion dates and current status.
 - 2. Project scope
 - 3. Contingency report (change allowance, encumbrances, and available budget)
 - 4. Expenditure reports
 - 5. Status of Minority/or Woman Owned Business Enterprise (M/WBE)
- e) The appropriate District staff, District consultants, and/or designees shall attend all Committee proceedings in order to provide a status update for their area of responsibility as it relates to the Bond Programs and answer any questions from Committee members.
- f) The Office of Inspector General will consider the input and specific audit requests of the Committee and HISD management during its development of the Annual Audit Plan. Audit projects conducted by the Office of Inspector General will be completed by the issuance of a formal audit report, which will be provided to the Board Audit Committee and made available to the Committee. Such reports will be publicized on the District’s website for use by the general public.

- g) The District acknowledges that the Committee may request certain information that is sensitive or legally privileged. The District will use the counsel of its legal advisor to comply with such requests within the limits of Texas law and the best interest of the District.

ETHICS POLICY

This Ethics Policy provides general guidelines for Committee members to follow in carrying out their roles. Not all ethical issues that Committee members face are covered in this Policy. However, this Policy captures some of the critical areas that help define ethical and professional conduct for Committee members. The provisions of this Policy were developed from existing laws, rules, policies and procedures as well as from concepts that define generally accepted good business practices. Committee members are expected to strictly adhere to the provisions of this Ethics Policy.

POLICY

CONFLICT OF INTEREST. A Committee member shall not make or influence a District decision related to: (1) any contract funded by bond proceeds or (2) any construction project that will benefit the Committee member's outside employment, business, or provide a financial benefit to the Committee member or a family member, such as a spouse, child, parent, or sibling.

OUTSIDE EMPLOYMENT. A Committee member shall not use his or her authority over a particular matter to negotiate future employment with any person or organization that relates to: (1) any contract funded by bond proceeds; or (2) any construction project. A Committee member shall not make or influence a District decision related to any construction project involving the interest of a person with whom the member has an agreement concerning current or future employment, or remuneration of any kind. For a period of one (1) year after leaving the Committee, a former Committee member may not represent any person or organization for compensation in connection with any matter pending before the District that, as a Committee member, he or she participated in personally and substantially.

COMMITMENT TO UPHOLD LAW. A Committee member shall uphold the federal and Texas Constitutions, the laws and regulations of the United States and the State of Texas, and the policies, procedures, rules and regulations of the Houston Independent School District.

COMMITMENT TO DISTRICT. A Committee member shall place the interests of the District above any personal or business interest of the member.

MEMBER CERTIFICATION. A Committee member shall certify his or her understanding of Committee's Ethics Policy and disclose and sign an annual conflict of interest statement for existing conflicts and re-submit if any conflicts arise during their tenure.

Westbury High School

Executive Summary

EXECUTIVE SUMMARY

The Houston Independent School District Construction Services team has so far this year brought online nine facilities, including three new schools, two renovated schools, one temporary campus, and three new additions.

The openings made for an extremely active first quarter, as the 2012 Bond Program surpassed the halfway mark in terms of school completion rate.

Schools welcoming students to new facilities upon their return from winter break on Jan. 8 include Sharpstown, Scarborough, and North Forest high schools, and Robinson Elementary School. (The construction of North Forest High School and renovation of storm-damaged Robinson Elementary were overseen by the bond team, but not funded with bond dollars.) Also in January, Austin High School opened a temporary campus to house students for the duration of construction on their new building.

Additional openings took place in March after Spring Break, with Parker Elementary School opening its new building, and Westbury High School, Wilson Montessori, and Garden Oaks Montessori opening new additions.

Eighteen more schools are expected to wrap up construction by the end of 2018, making this year one of the busiest for HISD, the 2012 Bond, and the Construction Services team.

Construction on several schools will be wrapping up in the coming months, including Energy Institute High School, High School for Law Enforcement, Washington and Yates high schools, Lawson Middle School, Askew Elementary School, Eastwood, Pilgrim, and Young Women's College Preparatory academies, and Wilson and Garden Oaks Montessori schools.

Additionally, construction on Kinder HSPVA, Jordan High School for Careers, Wharton Dual Language Academy, and Worthing, Northside, and Westbury high schools are all scheduled to wrap up by the end of the year.

Work also continues on schools damaged during Hurricane Harvey. Construction at Hilliard Elementary School, which underwent significant renovation after being damaged by the storm, is wrapping up and the school is on track to re-open in August. Additionally, the four elementary schools — Scarborough, Braeburn, Kolter, and Mitchell — being rebuilt after sustaining significant damage from Hurricane Harvey are now in the design phase.

Harvey rebuild schools are not funded by the bond program, but the projects are being overseen by Bond and Construction Services staff.

In total, Construction Services is managing building programs on 27 campuses, 22 of which are 2012 Bond projects. By the end of the year, the construction completion rate for the 2012 Bond Program will be 80 percent.

With so many schools nearing completion, Construction Services has focused on finishing construction and working with schools to select and order furniture that soon will be delivered to campuses that will be transitioning into new spaces in the coming months.

The team also is working to coordinate tours and celebrations for new schools as they wrap up and come on-line. Project managers and district staff have hosted walk-throughs for project advisory team members and trustees at High School for Law and Justice, Kinder HSPVA, Yates and Madison high schools, and Garden Oaks Montessori.

The team also coordinated milestone celebrations at three schools during the first quarter. Kashmere High School and Codwell Elementary School (non-bond) held grand opening ceremonies, and Northside High School marked its construction progress with a wall signing celebration.

Five more grand opening/building dedication celebrations are planned for the second quarter, including Scarborough High School (April 26), Sharpstown High School (May 3), North Forest High School (May 4), Wisdom High School (May 15), and Furr High School (May 18).

DESIGN MILESTONES

Last April, the Houston Independent School District Board of Education approved a plan allowing nearly \$99.1 million in forecasted bond surplus to be used for outstanding needs at bond campuses across the district. The impact of that realignment has become more evident in the first quarter of 2018. The scope refinements and design work for more than a dozen of these “mini-projects” have been completed and construction has begun.

Additionally, drawings, permitting, and pricing are being finalized so that projects and related enhancements can begin at DeBakey High School for Health Professions, Sharpstown High School, Lawson Middle School, Parker Elementary School, Askew Elementary School, Waltrip High School, Northside High School, and Wilson Montessori. Some of the needed improvements and academic programmatic requests that are being added to the bond projects as a result of the re-aligned funds include additional seating in gymnasiums for student assemblies, enhanced acoustical treatment in common areas, improved fine arts spaces, modernization of an existing cafeteria/kitchen, audiovisual and theatrical equipment upgrades, improvements to interior finishes, and various repairs to the exterior building envelopes.

The Bellaire High School project is continuing to move forward. Design work and drawing development continue to progress, with the first phase of selective demolition and construction scheduled to begin this summer.

Additionally, the Construction Services department continues its push for design excellence and sustainability for all the 2012 Bond Program projects. In the first quarter, the Milby High School project was honored with a 2018 Good Brick Award from Preservation Houston. This project also was awarded a Silver Level L.E.E.D. Certification from the U.S Green Building Council. Milby is the second project in the 2012 Bond Program to achieve L.E.E.D. certification and the first one in the 2012 Bond Program to reach Silver level certification. HISD currently has more than 20 projects registered with the U.S. Green Building Council and awaiting L.E.E.D. certification. Additionally, we have four non-bond projects also seeking L.E.E.D. certification.

Also this quarter, the Condit Elementary School project received the Caudill Award, the highest honor in the annual Exhibit of School Architecture competition, which is facilitated by Texas Association of School Board Administrators and Texas Association of School Boards for projects that exemplify excellence in planning and design of

the learning environment. Condit was recognized for how the compact, two-story, transformational 21st Century learning environment fulfills the desire of the community for a non-traditional school.

M/WBE NETWORKING ACTIVITIES

The Office of Business Assistance held and participated in multiple programs to promote HISD business and bid opportunities during the first quarter. The Supplier Diversity team sponsored three Workshop Wednesday meetings, which are held monthly to provide information to M/WBEs on topics of interest. First quarter workshop topics included how to do business with HISD, how to access capital, and how to create proposals.

The Business Assistance/Supplier Diversity Team also promoted bid opportunities and pre-bid meetings to their extensive contact list of minority companies, participated in 11 outreach events, and continued its partnership with the Interagency Mentor-Protégé Program. The current M/WBE participation rate for 2012 Bond projects is 26.48 percent — above the 20 percent goal originally set by program officials.

COMMUNICATIONS AND COMMUNITY ENGAGEMENT

The Bond Communications Team spent much of the first quarter planning and implementing communications plans for the nine new schools and additions that opened during the first quarter.

Team members worked with school principals to develop communications materials needed to ensure transitions and school openings went smoothly. The team also produced social media teaser videos to generate excitement about the new facilities in advance of their openings and carried out extensive, on-site, first-day coverage — blog posts, project updates, photos, videos, and social media posts.

The team continued to focus on updating the bond website, writing and distributing project updates, and promoting the @Build_HISD twitter account, which has grown to 412 followers, distributed more than 324 tweets, and earned more than half a million impressions during the first quarter.

Bond Communications also led the planning, promotion, and execution of grand opening celebrations at Kashmere High School and Codwell Elementary School (non-bond), and a wall signing celebration at Northside High School. The Northside event, in particular, drew in hundreds of stakeholders.

Planning is now underway for five more milestone events scheduled for the second quarter of 2018

REAL ESTATE

With all purchases complete under the 2012 bond program, the Real Estate department is maintaining and renewing current lease agreements as needed, assisting project managers with land planning issues, and searching for possible sites for future development. The department continues to supplement and maintain the centralized database of key documents for all HISD properties.

1. Funding within this bond for North and South Early College will be combined with funds previously allocated from the 2007 bond for these projects to meet the schools programmatic needs.
2. HSPVA moved to district 8 due to a proposed site for the new school located at 1300 Capital.
3. Program costs allocated to each project budget will be separated into various program budgets to provide better oversight and financial management, at a later date.
4. New schools / replacement projects will undergo a school site specific ed-spec development process and all schools will undergo a scope to budget process.
5. Project budgets include allocations for planning, design, construction, administration, and other related costs.
6. The current allocation for the Young Men's College Preparatory Academy (YMCPA) will allow for a demolition of the EO Smith facility, the addition of a smaller facility, and the renovation of the HP Carter facility for use by the YMCPA. An alternate plan for the project to include the demolition of both the EO Smith and HP Carter facilities and the building of a new school would cost an additional \$13,727,000.
7. Condit ES will be rebuilt and funded from surplus bond funds and/or the sale of real estate.
8. High School for Law Enforcement and Criminal Justice will be rebuilt and funded from surplus bond funds and/or the sale of real estate.

Districtwide Projects

DISTRICTWIDE PROJECTS

2012 Project Update Report

TECHNOLOGY UPGRADES AT ALL HISD SCHOOLS: \$100 MILLION

The 2012 Bond allocated funding for network improvements and wireless expansion.

Project Status

The 2012 Bond Program allocated \$100 million in funding for technology upgrades, network improvements, and wireless expansion at schools across the district. All technology work covered by this portion of the bond has now been completed.

The scope of the work included the addition of wireless access points, cabling, and other infrastructure equipment, such as network switches and Voice over Internet Protocol (VoIP). These improvements allow for the expansion of digital instruction, as well as safety and security improvements like telephones in classrooms.

For more information, please visit HoustonISD.org/voip.

MIDDLE SCHOOL RESTROOM RENOVATIONS: \$35 MILLION

Renovations of the restrooms in middle schools across HISD.

Project Status

All projects are complete, and there are no funds remaining for middle school restrooms. The projects are now in closeout.

SAFETY AND SECURITY IMPROVEMENTS: \$17.3 MILLION

Improvements include fencing, security cameras, and access control.

Project Status

All projects have been completed, and there are no funds remaining for safety and security improvements. The following projects have been completed with 2012 Safety & Security funds:

- Controlled Access - 285 campuses completed, 4 access control upgrades
- Security Camera upgrades - 6 CCTV upgrades
- Fire Alarm upgrades - 1 fire alarm upgrade

LAND ACQUISITION: \$55.8 MILLION

Funds to supplement significant site/parking constraints.

Project Status

With all purchases complete under the 2012 bond program, the Real Estate department is maintaining and renewing current lease agreements as needed, assisting project managers with land planning issues, and searching for possible sites for future development. The department continues to supplement and maintain the centralized database of key documents for all HISD properties.

EXECUTIVE SUMMARY

With the opening of nine new schools and additions during the first quarter, the Bond Communications team was heavily engaged in communications planning, opening-day coverage, and strategic follow-up to ensure parents, community members, and all HISD stakeholders were informed of district building successes.

Schools opening new facilities in January included Sharpstown, Scarborough, and North Forest high schools, and Robinson Elementary School. (The construction of North Forest High School and renovation of storm-damaged Robinson Elementary were overseen by the bond team, but not funded with bond dollars.) Also in January, Austin High School opened a temporary campus to house students for the duration of construction on their new building.

Additional openings took place in March after Spring Break, with Parker Elementary School opening its new building, and Westbury High School, Wilson Montessori, and Garden Oaks Montessori opening new additions.

Team members provided advance communications, including project updates and social media teaser videos, as well as comprehensive on-site, first-day coverage and follow-up social media and blog posts showing the buildings in use. The coverage resulted in an increased level of engagement – replies, retweets, likes – on the @Build_HISD twitter account.

The team continued to build on the success of the bond twitter account, providing project updates, photos, and videos through more than 320 tweets during the first quarter. These tweets earned more than 505,000 impressions during this time period, with 9,115 profile views and a followership increase of 65 percent from 250 to 412. Also during this period, the team tallied 1,300 link clicks (an average of 15 per day) 880 retweets (an average of 10 per day), and 2,400 likes (an average of 27 per day).

Team members also wrote and published 39 project updates that were posted on the HISD blog, the Build HISD website, and respective school project pages, and then further circulated to wider audiences via social media, the *Building Excellence* newsletter, and HISD's SchoolMessenger email listserv, which helps send school-specific project updates directly to the corresponding school community.

After completing a redesign of the bond project pages on the BuildHISD.org website last quarter, the team began tackling the development of project pages for construction projects at schools that are not bond funded to provide more easily accessible information on all construction projects across the district.

Also during the first quarter, the bond communications team led the planning, promotion, and execution of three milestone celebrations, including grand opening ceremonies for Kashmere High School and Codwell Elementary School (non-bond), and a wall signing celebration to mark construction progress at Northside High School.

Other grand opening celebrations/building dedications that are in the planning stages for the second quarter include Scarborough High School (April 26), Sharpstown High School (May 3), North Forest High School (May 4), Wisdom High School (May 15), and Furr High School (May 18).

Communications staff continue to attend Project Advisory Team meetings and internal strategy meetings as needed to assess communications needs, as well as provide guidance to district leadership and project managers on strategies to engage more effectively with stakeholders.

First Quarter bond communications by the numbers:

- 39 web stories/blog entries
- 4 press releases and media advisories
- 10 media mentions
- 17 videos
- 7 Project Advisory Team meetings
- 2 grand opening ceremonies (Kashmere High School and Codwell Elementary School; non-bond) and one wall signing celebration (Northside High School)
- 324 Twitter posts and 14 HISD Facebook posts highlighting bond activities
- 412 followers and 505,000 impressions on @Build_HISD
- Building Excellence, HISD’s bond newsletter, was sent to more than 4,222 registered subscribers in February and March

COMMUNITY AND SCHOOL OUTREACH

SCHOOL SUPPORT

- The Bond Communications Team spent much of the first quarter planning and implementing communications plans for the nine schools and new additions that opened.
- Team members worked with school principals to develop communications materials needed to ensure the transitions and school openings went smoothly. The team also produced social media teaser videos to generate excitement about the new facilities in advance of their openings and carried out extensive, on-site, first-day coverage — blog posts, project updates, photos, videos, and social media posts.

EVENTS

- The team helped coordinate and cover three milestone celebrations including grand opening ceremonies for Kashmere High School and Codwell Elementary School (non-bond), and a wall signing celebration to mark construction progress at Northside High School.

- The team coordinated and covered construction tours and walk-throughs for project advisory team members and trustees at High School for Law and Justice, Kinder HSPVA, Yates and Madison high schools, and Garden Oaks Montessori.

BOND OVERSIGHT COMMITTEE

- Produced, designed, edited, and distributed handbooks for members, and prepared meeting presentation.
- Planned and organized BOC tour of Wilson Montessori.

COMMUNITY ENGAGEMENT

- Continued monthly production of eNewsletter entitled Building Excellence, which is distributed to 4,222 subscribers. Continued to monitor and respond to requests for information and questions submitted to Bondinfo@HoustonISD.org.
- Produced and distributed fliers, callout scripts and letters for principals ahead of milestone events such as groundbreakings, wall signings, and grand openings and school transitions.
- Attended various Project Advisory Team meetings to assist with communication and provide coverage.

GLOSSARY OF TERMS

BAS

Building Automation System (HVAC and lighting controls)

Change order

A modification to the original construction contract authorizing a change in the work or an adjustment in the amount of the contract or the contract time. The original contract price may not be increased by more than 25% by change order.

Competitive Bidding

A procurement method by which a governmental entity contracts with a contractor for the construction, alteration, rehabilitation, or repair of a facility by awarding the contract to the lowest responsible bidder.

Competitive Sealed Proposal (CSP)

A procurement method by which a governmental entity may request proposals and pricing information based on the scope of work provided, rank the offers, negotiate a contract, and then award the project to the contractor that offers the best value to the entity.

Construction commissioning

A collaborative process whose purpose is to ensure that buildings and systems perform according to contract.

Commissioning agent

An independent party, unaffiliated with the design team or contractors, that takes charge of the construction commissioning process.

Construction documents

Extremely detailed drawings and specifications showing and describing all of the details required to construct the building.

Construction Manager at Risk (CMAR)

A construction delivery method by which a governmental entity contracts with an architect or engineer for design and construction phase services and contracts separately with a construction manager-at-risk to serve as the general contractor and to provide consultation during the design and construction, rehabilitation, alteration, or repair of a facility. A CMAR is selected based upon qualifications and price proposal that would provide the best value for the governmental entity.

Daylighting

A planned energy conservation strategy that utilizes illumination from sunlight.

Design development

Process in which schematic design drawings are further developed to include more detail, including: detailed site plan; room layouts; door and window types; interior and exterior elevations; reflected ceiling plans; plumbing, mechanical, structural, and electrical drawings; and kitchen layouts.

Design team

A group of professionals from architectural and engineering firms that is engaged to design a facility.

Educational Specifications

A document that details the number of rooms required, the size of each room, how those rooms should relate to each other (adjacencies), and the elements (sinks, electrical outlets, markerboards, cabinets, etc.) that should be included in each room. Districtwide Educational Specifications will be adapted for the specific needs of the campus.

Encumbrance Accounting

The recognition of commitments that will subsequently become expenditures when goods and services are received.

FF&E

Furniture, fixtures, and equipment. This describes all contents that are not a permanent part of the structure.

Hard costs

Expenses associated with direct construction of a project.

HVAC

Heating, ventilation, and air-conditioning

Job Order Contract (JOC)

A procurement method used for maintenance, repair, alteration, renovation, remediation, or minor construction of a facility when the work is of a recurring nature, but the delivery times, type, and quantities of work required are indefinite.

Leadership in Energy and Environmental Design (LEED)

A building certification process developed by the U.S. Green Building Council (USGBC) to enhance environmental awareness among architects and building contractors and to encourage the design and construction of energy-efficient, water-conserving buildings that use sustainable or green resources and materials.

MEP

Mechanical/electrical and plumbing systems.

Program or Concept design

Single-line drawings that illustrate room adjacencies and scale

Public Facility Corporation

The PFC is a non-profit corporation, the creation of which was sponsored by the District pursuant to the Public Facility Corporation Act. The Public Facility Corporation act authorizes the creation and utilization of school district public facility corporations to issue bonds for capital renovation programs. The Houston Independent School District Public Facility Corporation (HISD-PFC) has utilized this structure to issue \$48M for four of the news schools in the 2007 Facilities Capital Program (FCP).

Schedule of values

An itemization of costs that comprises the entire contract amount.

Schematic Design

Typically includes a simple site plan, floor plans, simple building cross-sections, an outline specification with general information about building systems, a table comparing required square footages from the educational specifications with actual square footages shown on the drawings, a preliminary estimate of cost options, and three-dimensional depictions of the exterior of the building.

Schedule of values

An itemization of costs that comprises the entire contract amount.

Scope-to-Budget

An analytical review conducted by the architectural/engineering team to ensure the proposed scope of work and project requirements are aligned with the established construction budget. The approved findings from this review become the basis for the design and preparation of the construction documents.

Schematic Design

The schematic design submission typically includes a simple site plan, floor plans (simple scale drawings that show room sizes, relationships, doors, and windows), simple building cross sections, an outline specification with general information about building systems, a table comparing required square footages from the educational specifications with actual square footages shown on the drawings, a preliminary estimate of cost options, and possibly 3-dimensional depictions of the exterior of the building

Soft costs

A construction industry term, but more specifically a contractor accounting term for an expense item that is not considered direct construction cost. Soft costs include architectural, engineering, financing, legal fees, and other pre- and post-construction expenses.

Swing space

A school building or a portion of an existing school building or other facility that will house the student population and its teachers and staff during the school-construction process.

Bond Oversight Committee Status Report

February 2018

The Houston Independent School District Bond Oversight Committee got an up-close and personal look at a 21st-century learning environment on Tuesday when they toured the new North Forest High School during their regular quarterly meeting.

The eight-member group gathered first in the auditorium for a brief introduction and a chance to see the space's retractable seating, before moving on to the dramatic main hall, which serves as a focal point for the school.

The space features modern chandeliers and lots of windows providing both natural light and views of the surrounding landscape. It connects to a food-court-style dining commons with two levels of flexible seating.

Led by North Forest Principal Darryl Henson and HISD Facilities Design General Manager Dan Bankhead, the tour also featured the school's two gymnasiums and a unique, second-level, indoor running track — the first of its kind in HISD. Committee members also got a chance to see one of the second-floor learning stairs and career and technical education rooms.

The \$59.5 million facility, located directly across Mesa Drive from the original school, opened on Jan. 8. The project was funded with state money, but construction was managed by the district's bond team.

Following the tour, committee members gathered in an upstairs classroom, where HISD Construction Services Officer Derrick Sanders provided the committee with a status report on the 2012 Bond Program.

Fifty percent of projects are now complete, Sanders said, noting that almost 80 percent would be complete by the end of this year. By the end of next year, he added, all but one school will be completed and opened.

Five new campuses opened to students for the first time on Jan. 8. They include Sharpstown, Scarborough, and North Forest high schools, as well as Robinson Elementary, which underwent a major renovation after being damaged during Hurricane Harvey. The district also opened a new temporary campus to house Austin High School students and staff during the rebuilding of their school.

Eight more projects are expected to wrap up by June, Sanders said. They are Parker and Hilliard elementary schools, Lawson Middle School, Washington and Yates high schools, High School for Law and Justice, and Eastwood and Pilgrim academies. Hilliard is not part of the 2012 Bond, but is undergoing renovation due to damages sustained during Hurricane Harvey.

HISD Chief Operating Officer Brian Busby also briefed the committee on his proposed 20-Year Capital Plan, which calls for four bonds over the next two decades. Each bond would have a similar structure. In addition to funding for new relief schools and existing facility repair and replacement, each bond would include money earmarked for technology, transportation, safety and security upgrades, and building automation, HVAC and lighting controls.

Busby said a new bond could be approved by the HISD Board of Education and put on the ballot for voter approval in November 2018 or May 2019.

The oversight committee also heard updates on the financial status of the 2012 Bond Program, which continues to maintain a AAA rating, as well as minority- and women-owned business enterprise participation rates, which continue to track above board-established goals.

Additionally, members were informed about communications and community engagement efforts, including the team's work to provide bond principals with targeted updates and parent. The team also is continuing to coordinate and cover project milestone celebrations and promote and use the new twitter account — @Build_HISD — to provide updates and information to targeted stakeholder groups.

HISD's \$1.89 billion bond program was approved by Houston voters in 2012. In addition to campus-based projects, the program also includes work benefiting students across the district, including \$100 million in technology upgrades, \$44.7 million to replace regional fieldhouses and improve athletics facilities, \$35 million to renovate middle school restrooms, and \$17.3 million for safety and security improvements.

The next quarterly meeting of the Bond Oversight Committee is scheduled for April 2018.

-----------------	---	---

ABSENT:

The general purpose of the meeting was to brief the Bond Oversight Committee on the fourth quarter progress of the new construction and renovation projects funded through the 2012 Facilities Capital Program. Related issues, questions, and activities were also discussed:

Item 1

Welcome

Construction Services Officer Derrick Sanders welcomed Bond Oversight Committee members and other guests just after 8:30 a.m. The group met initially in the auditorium of the North Forest High School. He informed members that the meeting would begin with a tour of the new school prior to the usual proceedings. He then introduced Facilities Design General Manager Dan Bankhead and North Forest Principal Darryl Henson to lead the tour.

Item 2 North Forest High School Tour

Mr. Bankhead and Principal Henson led the committee and other attendees on a tour of the new North Forest High School. Stops were made in the dining commons, gymnasium, and various classrooms, including the automotive shop. Committee members had the opportunity to ask questions about the new school. The tour concluded in a second-floor upstairs classroom, where the remainder of the meeting was held. The meeting was held in the classroom to showcase the technology and flexibility of the space.

Item 3 Minutes from October 31 Meeting

Mr. Sanders asked the group to approve the minutes from the October 31 meeting. They were approved unanimously.

Item 4 Video Presentation

Mr. Sanders began the meeting with a video presentation highlighting the four schools — Sharpstown, Scarborough, North Forest high schools, and Robinson Elementary School — and that opened on the first day of the Spring 2018 semester.

Item 5 Fourth Quarter Construction Update

Mr. Sanders showcased photos of the five new campuses that opened in January — Sharpstown, Scarborough, North Forest high schools, and Robinson Elementary School, and the new Austin High School temporary campus. Sharpstown was rebuilt and Scarborough was renovated as part of the district's voter-approved 2012 Bond Program. The construction of the new North Forest High School and renovation of storm-damaged Robinson Elementary School (where everything below four feet had to be replaced due to flooding) were overseen by the bond team, but not funded with bond dollars. At Austin, a new temporary campus was built to house the school while it's original building — located directly across the street — was rebuilt as part of the 2012 Bond Program. Committee Member Phoebe Tudor asked if Hurricane Harvey repairs would be covered by insurance. Mr. Sanders responded that insurance had helped, noting that \$88 million in Harvey-related damages, \$25 million had been funded by insurance. He noted that some of that \$25 million had been fronted by the insurance company and the district still needed to file additional paperwork related to it. He also noted that the \$88 million does not include the cost of rebuilding four elementary schools that were significantly damaged by the storm. The district has estimated that it will cost \$126 million to rebuild those four schools. Mr. Sanders and Chief Operating Officer Brian Busby noted that the district decided to rebuild those four schools after determining that they would need to be significantly raised due to new, post-Harvey building codes. It was determined to be cheaper to rebuild than renovate and raise the schools. The new building codes will require the new schools to be raised by almost six feet to prevent future flooding.

Mr. Sanders also displayed photos of schools that were set to be completed in coming quarters. Parker Elementary School, Eastwood Academy, High School for Law Enforcement, and Hilliard Elementary School will all be done by the end of the first quarter, with Parker planning to open to students after Spring Break. Additionally, Lawson Middle School, Pilgrim Academy, and Washington and Yates high schools are set to wrap up by the end of the second quarter. Three additional schools — Wilson Montessori, Westbury High School, and

Garden Oaks Montessori — will move into new wings over Spring Break as part of scheduled construction phasing.

Mr. Sanders also noted that the 2012 Bond Program had hit a major milestone with 50 percent of all projects completed. By the end of 2019, the program will be 98 percent complete, with only Bellaire High School still under construction. Before moving on to the next agenda item, Mr. Bankhead told the committee that Condit Elementary School recently had received the Caudill Award for excellence in school design.

Item 6 Supplier Diversity (M/WBE) Report and Community Outreach

Business Logistics and Transportation Officer Alexis Licata began her presentation by introducing Yesinia Taylor as the new general manager of Business Solutions. Ms. Taylor told the committee about three M/WBE workshops that had been held during the previous quarter, as well as other outreach the team had done with various community groups and organizations. She noted that the M/WBE participation rate was almost 30 percent, which was well above the baseline set by the HISD Board of Education.

Item 7 Financial Report

Controller Sherrie Robinson reported that the total budget for the 2012 bond program was \$2.1 billion, with total commitments of \$1,695,139,404, including \$486,926,280 in encumbrances and \$1,208,213,124 in expenditures. Available funding is \$407,310,559.

Item 8 Bond Communications

Bond Communications Manager Holly Huffman reported that the Bond Communication Team had spent most of the last quarter focused on the five new campuses opening in January. The team created teaser videos for three of the schools to generate buzz in advance of the opening. Leading up to the opening, the team working with administrators to provide parent communication, including letters, callouts, maps, FAQs, etc. And on the first day, the team provided full, on-site coverage of all five new campuses. Ms. Huffman said the team also was continuing to grow the @Build_HISD twitter account, noting that the following was small, but growing steadily at a rate of two new followers per day. She further noted that the team had held three milestone events during the last few months and that planning was underway for about seven more.

Item 9 Looking Ahead

Mr. Sanders noted that eight schools would be finished by the end of June, which would equate to a 59 percent completion rate. By the end of 2018, the district would have an 80 percent completion rate. He then asked Chief Busby to give a presentation on the district's plans for future bond elections.

Item 10 Building HISD: Planning for the Future

Chief Busby told the committee he was developing a 20-year capital plan that would call for four bond elections — each requiring little-to-no tax increase — held over the next two decades. Each bond would be at least \$1.2 billion and would earmark funds for new relief schools as well as facility repair and replacement. The district would use facilities assessment and student growth data to determine what new schools needed to be built and what old schools needed to be rebuilt. In addition to campus construction, each bond program also

would allot money for district technology, safety and security upgrades, transportation/light fleet and building automation systems, HVAC, and lighting controls. The first bond election could be held in November 2018 or May 2019.
