To: All Parents, Guardians and Employees

Subject: AHERA Notification to Parents, Guardians and Employees

In compliance with the US Environmental Protection Agency, (EPA), Asbestos Hazard Emergency Response Act (AHERA), Facility Services Environmental Affairs conducts building surveillances every six (6) months and re-inspection every three years to identify asbestos-containing building material(s). From the information gathered, an AHERA Asbestos Management Plan is developed and/ or updated.

Please refer to the school's asbestos management plan for specific details regarding whether or not the campus's building(s) has asbestos-containing building materials. The plan and a copy of the inspections and assessments are available for review Monday through Friday during regular office hours in the school administrative office.

It is important to note that if the school's asbestos management indicates that asbestos-containing building materials were used in the construction that these materials are in a form and condition that do not pose an imminent health threat to students, staff and visitors.

For additional information about AHERA or any specific questions regarding asbestos containing building materials, contact Facilities Services Code Compliance Manager, Anne Washington, or Facilities Support General Manager, Lucie Garcia, at 713-670-3901.
