Clicks can have Consequences

- Scams
- Cyberbullying
- Sexting
- Digital harassment
- Damaged reputations
- Risky online relationships

The data trail left by the interactions in a digital environment including the use of TV, mobile phone, the Internet, and other connected devices and sensors.

The importance of a good digital footprint

- 29% of College Admissions officers have Googled an applicant
- 31% have visited social media sites to learn more about an applicant
- 70% of job recruiters say they have rejected an applicant based on their social media postings
- Some financial lending companies are using social media to determine a person's credit worthiness.
- Social media has been used as evidence in court cases

Helping your teen create a **Positive Digital Footprint**

- Help them think long term
- Have an agreement on what's ok to post
- Teach them to keep personal information private
- Make sure they use privacy settings on their social network pages
- Remind them to protect their friends' privacy
- The golden rule applies online

What HISD is doing

- Setting clear, realistic, and enforced policies
- •Teaching digital citizenship in our classrooms
- •Encouraging students to stand up, not stand by
- •Website for students, staff, and parents with tools, tip sheets, and resources
