

# CAREER READY WAGON

A free mobile activity lab for career exploration at the elementary school level.

## PROGRAMMING OPTIONS

**CAREER READY WAGON BUS:** The bus needs to be parked somewhere on campus that students can safely access, within 200 feet of an electrical outlet. The Ready Wagon can accommodate one class at a time, for about 35-45 minutes each. Optimal for grades 3-5.

**CAREER ACTIVITY STATIONS:** If for some reason the campus cannot provide a suitable area for the bus, or in case of weather, we can bring a selection of the career activity stations onto the campus. This requires a space for the stations, e.g. an empty classroom, library, mini-gym, etc. Optimal for grades 3-5.

**ROBOTICS PRESENTATION:** Needs an auditorium type space, a projector, and a microphone. With these accommodations, the Career Cowboy can see as many students at once as can fit into the auditorium space. Lasts about 20-30 minutes per presentation. Optimal for grades PreK-2.

For all options, during the course of the visit all participating students need to be accompanied by a certified teacher and/or leadership team member.

## REQUESTING THE PROGRAM

To request the Career Ready Wagon for your school, fill out the form at <http://tinyurl.com/WagonRequest>
