

# SchooLinks Career Clusters

## Agriculture, Food & Natural Resources

This cluster focuses on how to manage, preserve, and distribute natural resources, and can involve working in food or agriculture.

## Architecture & Construction

You would be responsible for designing, planning, building, and maintaining structures such as building, homes, highways, and bridges.

## Arts, A/V Technology, & Communications

Become a creative professional, such as a performer, artist or journalist. You can also work behind the scenes to promote and manage artistic and media projects.

## Business, Management, & Administration

Be part of making businesses successful. In this cluster you'll be responsible for the planning, operation, and strategy of businesses large and small.

## Education & Training

You will teach, mentor, and guide young people. Some common roles include teaching, working in libraries, and working in educational leadership.

## Finance

Provide financial services such as accounting, banking, and insurance to help companies and individuals meet their financial goals.

## Government & Public Administration

There are many roles in government that keep our communities running smoothly. You can serve in local, state, or federal government or in organizations that provide for the common good.

## Health Science

In this cluster, you can work directly with patients by promoting health, treating injuries and disease, or doing research on new technology and medicines.

## Hospitality & Tourism

In this cluster, you'll make sure that guests and customers have great experiences in restaurants, hotels, sports arenas, or tourist attractions.

### Human Services

The human services cluster involves helping people with a variety of needs, such as counseling and mental health services, family and community services, and even fitness training.

### Information Technology

Work with computer hardware, software, multimedia, and network systems. You will be responsible for the technology we use and making sure others are educated about how it works.

### Law, Public Safety, Corrections, & Security

You'll be responsible for providing for the safety and order of your community by protecting people from crime, fire, and disasters or working in the court system.

### Manufacturing

You will create and design the products that we use on a regular basis, and make sure that factories and industries function smoothly.

### Marketing, Sales, Service

You can work with businesses in nearly any industry to shape the messaging, story, and experience that customers have with products and services.

### Science, Technology, Engineering, & Mathematics

This cluster is for those who have a passion for innovation, scientific research, and creating the technology that we'll use in the future.

### Transportation, Distribution, & Logistics

You will ensure that people and goods make it to where they are going efficiently. You can plan or manage transportation systems, or operate and maintain vehicles.
