Dear Parents and Students,

At Coop, we have compiled a list of important information your child may use to be safe while being online, whether it is through a tablet, phone, or computer, we want our kids to be safe. The following are tips to consider:

1. **Never reveal** personal information such as full name, home address, or school.
2. **Never give** your password to anyone.
3. **Always** log off the computer
4. **Never communicate** online with strangers.
5. **Follow the appropriate** age limit for social networking sites.

The following are websites that will help you further learn more about online safety.
