NOTES:

1. The meeting began with noting the next PAT meeting date of November 19, 2015 at 5:30 pm.
2. Project Timeline
 - a. November: **PAT Meeting, Thursday Nov. 19, 2015 @ 5:30 PM**
3. CTE Presentation
 - a. PAT – Questions if programs can be added to the curriculum. How were these programs decided upon
 - i. Moody Nolan – We are to design around the curriculum provided by the district.
 - ii. PAT – The students voted and decided the CTE programs of their interest.
 - iii. HISD – The spaces have been designed with flexibility to transform to different programs if students lose interest or programs become undesired. Additionally, other programs will exist at an off campus location available to students.
 - b. PAT – Questions if Sports Medicine is still a part of the Health Science program.
 - i. HISD – Explained that the course is Health Science but Sports Medicine is taught within this general course. The district is developing the other components of the Health Science program.
 - ii. Yates Admin – The School has met with Baylor Medical School to begin the foundations of this program.
 - c. PAT – Is social media integrated into the School of Communication program?
 - i. HISD – Yes, it's more of an instructional aspect of the program
 - d. PAT – How are different roles within the communication industry being presented to students?
 - i. Moody Nolan – The spaces for those different roles have been designed around how the course is going to be taught. Each space is able to accommodate the teaching functions pertaining to the specific content or roles that are taught to the students.
 - e. PAT – Questions the technology budget's impact on the new school.
 - i. HISD – The technology budget is separate. CTE equipment does not come out of the building construction budget
 - ii. PAT – Questions if a list of the CTE equipment can be provided
 - iii. HISD – Will provide list of CTE equipment to be purchased
 - f. PAT – Questions if Yates will be a fully comprehensible program
 - i. HISD – Each of the basic curricula is integrated within each neighborhood to facilitate natural collaboration.
 - g. PAT – Questions proximity of Architecture and Construction to Maritime (for possible collaborations)
 - i. Moody Nolan – While Architecture and Construction is not in a close proximity to Maritime for collaborations it is designed as an open studio space which allows for maximum flexibility.
4. Upcoming Meetings
 - a. November: **PAT Meeting, Thursday November 19, 2015 @ 5:30 PM**
