Mission: At Port Houston Elementary, we promote a collaborative and empowering community where the needs of the whole child are met through equitable education to show academic, social, and emotional growth by fostering a variety of opportunities, setting the foundation, and building confidence inside and outside of the classroom.

Vision: Every child everyday will have opportunities to be problem solvers, develop emotional intelligence and the confidence to fulfill their goals. Every child will harbor a love for learning and apply their knowledge and tools to experiences outside the classroom.
