

MATH Choice Board

Directions: Directions: Students please complete the activities from MATH board in the order that you prefer. Submit evidence of completion by April 17, 2020 on Google Class.

<p>Come up with 5 numbers between 1,000 to 10,000. Place the numbers of your choice in order from least to greatest.</p> <p>Example:</p> <p>4,545 3,654 8,123</p>	<p>Is your turn to help our environment! Look around in your house and find 10 things that you can recycle. Write your items down and explain why is important to recycle?</p> 	<p>Write a math problem that includes multiplication and division. Send me a picture of your problem. Use the following number sentences in the problem: 6x8 total divided by 12</p> 
<p>SEL:</p> <p>Draw a picture of yourself. Write at least 10 strengths all around the image</p> 	<p style="text-align: center;">FREE FUN SPACE</p>  <p style="text-align: center;">Any Activity you want your teacher to See on Class Dojo Ms. Joseph Ex: On Tik Tok Playing a Game</p>	<p>You are a scientist. Fill a bucket or a sink with water. With an adult's permission, pick 3 things you can put into the water to find out if they will sink or float.</p>  <p>First, form a hypothesis as to whether the item will sink or float. Then conduct the test. Write down your hypothesis and your result.</p>
<p>Think about the times that you have been in a store. What would you buy if you had only \$15? Write down the prices of each item. Make sure that your total is \$15.</p> 	<p>Look for objects around your home that are solids, liquids and gas</p> <p style="text-align: center;">Solids, Liquids, and Gases</p>  <p style="text-align: center;">SOLID LIQUID GAS</p>	<p>Do Imagine math for at least 45 minutes.</p> 

MATH AND SCIENCE

PROJECT: Send a photograph of each page of your newspaper on Friday 4/17/20

You are living a unique experience learning at home.

Create a notebook where you can write or draw about how your family feels and feels and what you do during the day at home. To assemble the notebook, you can fold several sheets of paper in half and staple them together, or you can use your own notebook. Then decorate the cover with the title, your name,

and pictures. You will write on a sheet each day 10 sentences for each day. Every day you must put the date, the sentences (you can draw a picture.)

Day 1: Make the notebook and color the cover.

Days 2-6: Write the date, write your 10 sentences paragraph.

Options:

- You can start by introducing your family members.
- Explain what you did over the weekend
- Explain if you liked or disliked www.storyonline.net.
- The activity that you liked the most the day before (games in each one, in the yard, schoolwork, what you saw on TV).
- What was your favorite activity over the weekend with family?
- Anything else you want to share.

Every day you must write something different.
