High schools focused on career-tech-education (CTE) so families know their student is prepared for life after graduation.

MY MESSAGE TO YOU

I truly believe our school community will benefit from electing to take advantage of the NES Aligned opportunity. We can provide our students with the kind of education and experience that will change the trajectory of their lives.

As an educator, my most important role is to take advantage of every opportunity to provide my students with the foundational skills they need to succeed in life beyond HISD.

As a school leader, I am always looking for ways to elevate and reward the educators in my building for the hard work and dedication they show our students.

NES Aligned allows me to do both things, now. Not a month from now or a year from now. There is no time to wait our children do not have a minute to spare.

I'm excited about this journey, and I hope you are too.
