

MEMORANDUM

May 28, 2021

TO: Board Members

FROM: Grenita F. Lathan, Ph.D.
Interim Superintendent of Schools

SUBJECT: **CAMPUS DEMOGRAPHIC REPORT, 2020–2021**

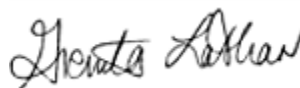

CONTACT: Allison Matney, 713-556-6700

Attached is a copy of the Campus Demographic Report for 2020–2021. This report provides information on the student population, enrollment trends, and transfer demographics for Houston ISD campuses. Supplemental maps are included to show the neighborhood schools and enrolled schools of students transferring in and out of HISD campuses. The information is based on 2020–2021 Fall PEIMS Resubmission data, TEA Public Information Request, U.S. Census Bureau data and other internal HISD lists.

Key findings include:

- Overall, 196,550 students were actively enrolled in Houston ISD Schools in 2020–2021 based on the Fall PEIMS Resubmission file. Compared to 2019–2020 Fall PEIMS Preliminary file, Houston ISD lost 14,021 students this school year.
- Between 2019–2020 and 2020–2021 school years, there were significant enrollment changes in Early Education and 3rd grades. The Early Education grade enrollment decreased by 75.1 percent and 3rd grade enrollment increased by 5.1 percent.
- Enrollment in Pre-Kindergarten and Kindergarten grade levels decreased by 28.6 and 12.2 percent respectively.
- Enrollment in 10th and 12th grade levels increased by 2.9 and 1.9 percent respectively.
- Hilliard Elementary, Young Learners, and Fonville Middle experienced the largest decrease in students transferring into their schools. Bellfort ECC, Neff ECC, and Energized for STEM Academy Middle experienced the largest increase in students transferring in.
- Bellfort ECC, Neff ECC, and Halpin ECC experienced the largest decrease in the number of students transferring out of their schools. Neff Elementary, Lewis Elementary, and Tinsley Elementary experienced the largest increase in students transferring out.

Should you have any further questions, please contact Allison Matney in Research and Accountability at 713-556-6700.

Summary

CAMPUS ENROLLMENT

This table is available for campuses both with and without attendance boundaries. For campuses without attendance boundaries, this table does not include “Living in Zone” nor “Transfers In” information. Provides membership and demographic information pertaining to the enrolled students at the campus.

* Facility capacity and utilization will be added when the Houston ISD Facilities Assessment is complete.

ZONE POPULATION ENROLLED IN HISD SCHOOLS

This table is available for all campuses with attendance boundaries. It shows the demographic snapshot of all Houston ISD students living within the attendance boundary.

* Federal races Asian and Pacific Islander/Native Hawaiian were combined into one category prior to 2020-2021 school year. To comply with federal reporting requirements, the federal races have been separated.

SCHOOLS THE ZONE POPULATION ATTEND

This table is available for all campuses with attendance boundaries. The first half of the table lists the top eight Houston ISD schools the zoned population attend. The second half of the table lists an estimate of students in other public schools (charter systems and traditional ISDs). The census data estimate is used to determine the number of students not enrolled in public school.

TRANSFERS IN CAMPUS OF RESIDENCE

This table is available for all campuses with attendance boundaries. It lists the top five schools from which the enrolled students transferred.

HOME CAMPUS OF ENROLLED STUDENTS

This table is available for all campuses without attendance boundaries. It lists the top 18 schools (varies) from which the enrolled students transferred.

Texas Education Agency, Public Information Request #372193, April 15, 2021

DATA SUMMARY

Texas Education Agency (TEA) Fall PEIMS Resubmission data was used to determine school populations and demographics. ArcGIS software calculated the zoned school for each student, based on the address on file in PowerSchool SIS. TEA Public Information Request (PIR) data was used to determine the number of students zoned to each Houston ISD school but are not enrolled in those schools. The data only includes public charter and traditional ISDs. General population was determined by the census block percent area overlap of each school's attendance boundary. Only ages under 5 to under 18 were considered. Total estimate of students not in public school was calculated by subtracting the TEA PIR and Houston ISD zone population data by the U.S. Census Bureau's population estimate. Houston ISD's Campus Information List provided the official school names and locations. A list was provided by the Office of School Choice for the school themes.

Transfers Out

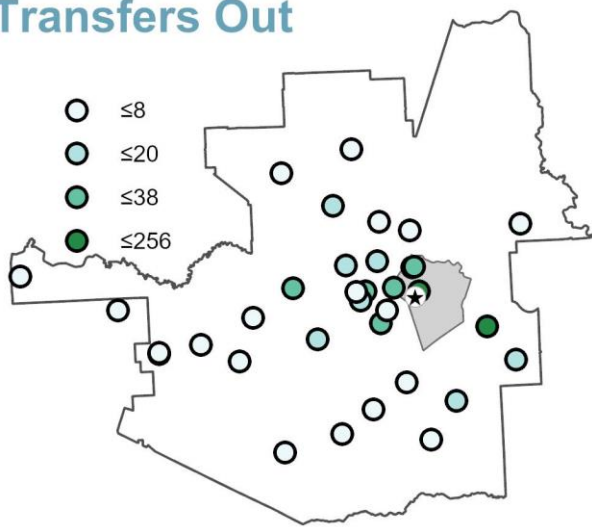

Figure 1. Shows the attendance boundary and physical location of the school. Student population density is represented by the green graduated colors within the circles. The circle locations are the locations of the schools those students (transferred out) are enrolled in.

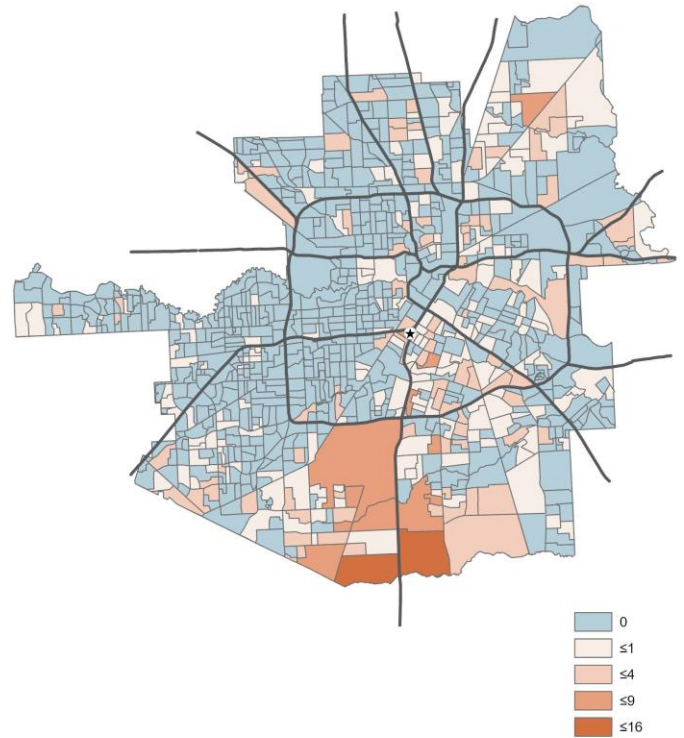

Figure 3. Enrolled student population density is represented by the orange graduated colors within the census blocks.

Transfers In

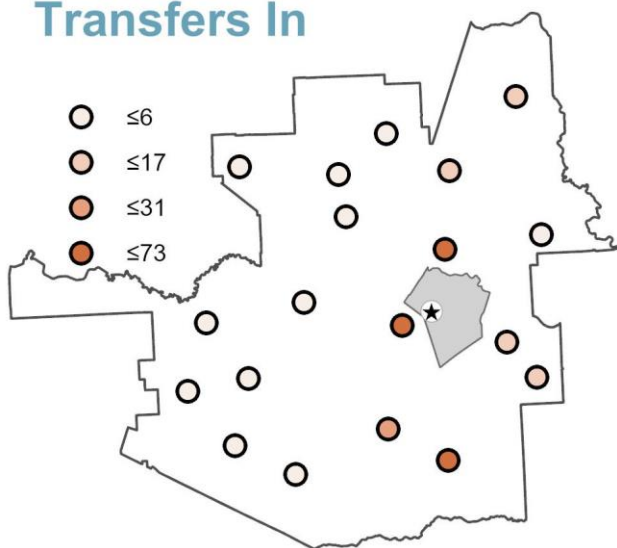

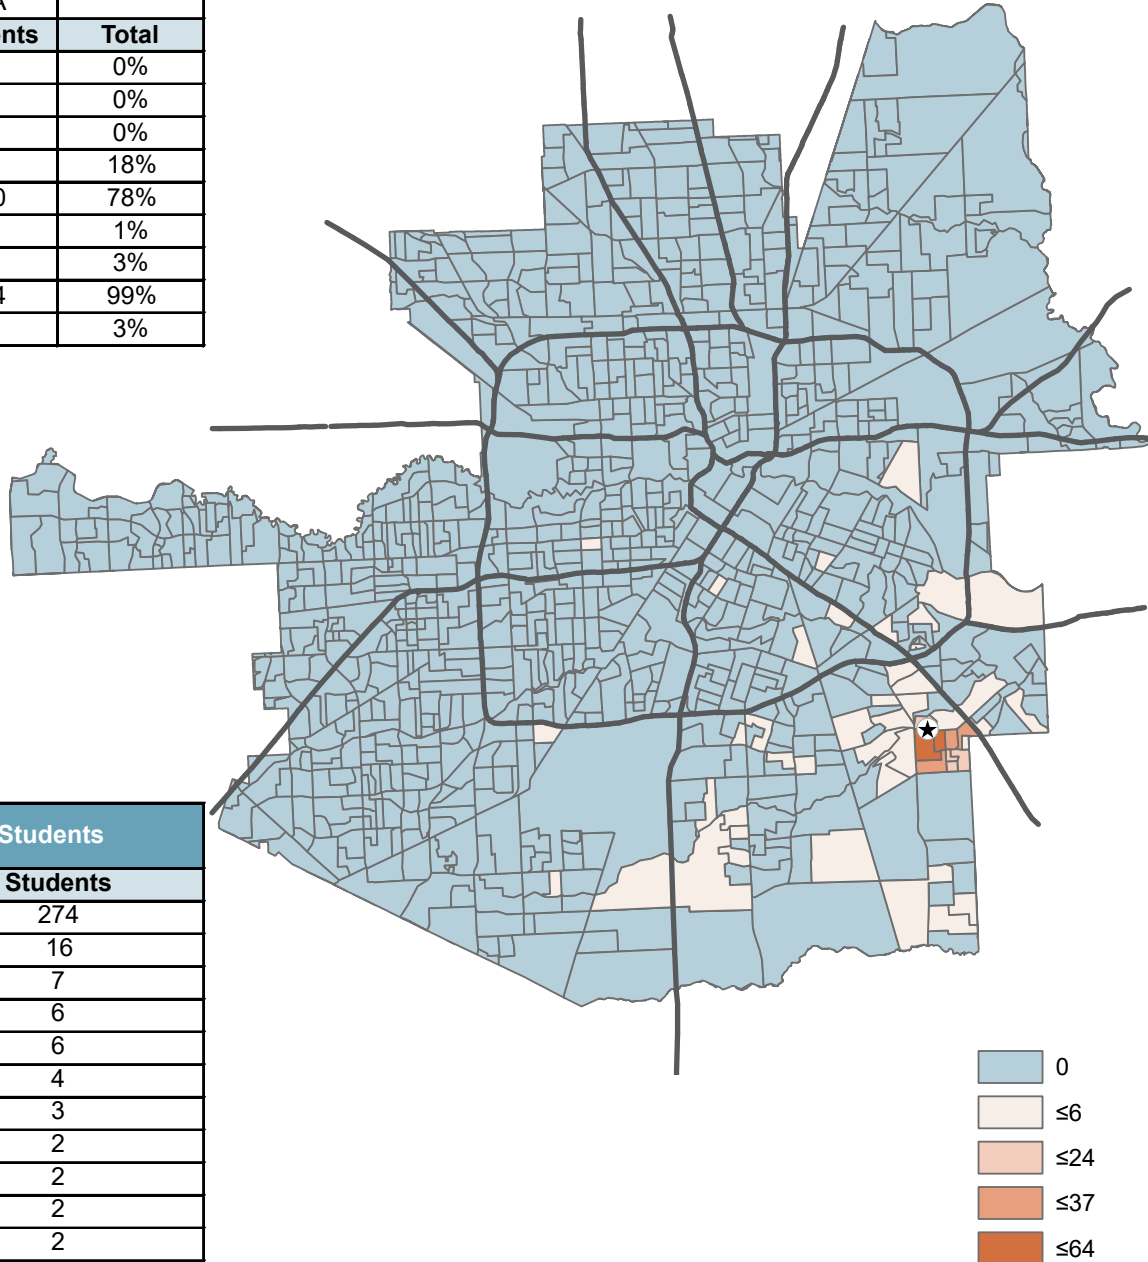

Figure 2. Shows the attendance boundary and physical location of the school. Student population density is represented by the orange graduated colors within the circles. The circle locations are the locations of the schools those students (transferred in) are enrolled in.
