

Introduction

Art, as a universal language, incorporates the study of visual arts to offer unparalleled experiences and empower students to explore realities, relationships, and ideas. Art engages and motivates students through active learning, critical thinking, and innovative problem solving. This discipline develops cognitive functioning and increases student academic achievement, higher order thinking skills, communication, and collaboration. Students develop relevant aesthetic and cultural awareness through exploration leading to creative expression. Creativity is essential and the study of the Fine Arts nurtures and develops the whole child.

Four basic strands provide broad, unifying structures for organizing the knowledge and skills students are expected to acquire:

- foundations: observation and perception
- historical and cultural relevance
- creative expression
- critical evaluation and response

Each strand is of equal value and may be presented in any order throughout the year. Students rely on personal observations and perceptions, which are developed through increasing visual literacy and sensitivity to: surroundings, communities, memories, imagination, and life experiences, as sources for thinking about, planning, and creating original artworks. Students communicate thoughts and ideas with innovation and creativity. Through art, students challenge their imaginations, foster critical thinking, collaborate with others and build reflective skills. While exercising meaningful problem-solving skills, students develop the lifelong ability to make informed judgments. (Adapted from TEKS)

Foundations: observation and perceptions

Students will develop and expand visual literacy skills, organize ideas from the environment utilizing critical thought, imagination, and the senses to observe and explore the world by understanding and applying the **elements of art, principles of design**, and expressive qualities. Students will:

- Identify and understand the **Elements of Art**: line, shape, color, texture, form, space, and value as the fundamentals of art in personal artworks
- Identify and understand the **Principles of Design**: balance, emphasis, repetition/pattern, movement, rhythm, contrast, variety, proportion, unity in personal artworks
- Record visual ideas about their environment and experiences in a **sketchbook** as evidence of planning/process for original works
- Make judgements about the expressive properties of artworks, using art **vocabulary** accurately

Studying the elements of art and principles of design will be a first-semester goal. Greater emphasis is placed on media exploration and student voice during the second semester.

Creative Expression

Students will develop complex 2D and 3D artwork, using various media. In addition, students will explore various alterations to the working surface, such as collage and texture. Sketches will be used in the planning process for 3D works.

Historical and Cultural Relevance

Students will investigate selected historical periods and styles from a variety of cultures. Art from around the world will be explored and may be used as a basis for student artwork. Through discussion and selected reading, students discover lifelong opportunities for self-expression and artistic growth, as well as the appreciation of what has been done before, in our local environment as well as cultures around the globe.

Critical Evaluation and Response

Students will observe, discuss, and write critically about their own art and works from selected periods and cultures. They will analyze their process and finished piece. They will learn to interpret and evaluate their art as well as works by other artists in thoughtful discussions. Through class critiques students will demonstrate attentiveness and respect for the opinions of others.

The Feldman method of critique “The Critical Method” is used for formal study and for writing essays about art. It consists of four main criteria:

- Description
- Analysis
- Interpretation
- Evaluation

In addition to a **sketchbook**, students will maintain a personal **portfolio**, to keep artwork safe, and to provide a record of learning and growth.

Art textbooks available on Digital Resources via Clever include:

- *The Visual Experience*
- *Experience Painting*
- *Discovering Drawing*

AP Drawing is a course for you to develop your skills in drawing as you experiment with different materials and processes. You'll create artwork that reflects your own ideas and skills and what you've learned.

Skills you will learn:

- Investigating materials, processes, & ideas
- Practicing, experimenting, and revising as you create your own work
- Communicating your ideas

For the AP Drawing portfolio:

- Work should focus on the application of drawing skills, including mark-making, line, surface, space, light & shade, & composition.
- Think about marks, materials, and processes used to make marks, and relationships of marks and ideas.
- There's no preferred or unacceptable content or style.

GRADING POLICY

<ul style="list-style-type: none"> • Major Milestone (artwork/final product) 40% • Mini Milestone (sketches, planning, research) 40% • Daily Work (quiz/critiques/discussions) 20% 	<p>The Final Exam will be cumulative over content covered in class, including vocabulary terms, concepts, and artists. It will consist of multiple-choice questions and an art assignment to exhibit techniques learned during the semester. In addition, there will be an essay required as part of the final exam. Late final exam essays are NOT accepted. The final exam counts as 10% of the semester grade. The weights are as follows:</p> <ul style="list-style-type: none"> • Multiple-choice 30% • Essay..... 20% • Artwork 50%
<ul style="list-style-type: none"> ▪ late work..... 5 points off per class period 	

All physical artworks must have student name, class period and section on the **back**, lower left or right corner.

All work submitted digitally must follow correct naming convention and submission guidelines as posted in the assignments. Points will be deducted if students fail to include their name on the artwork. **Incomplete** work does not receive a passing grade. Late work receives 10 fewer points per class period it is late. Students may only receive additional time upon my discretion. Students are to finish incomplete work on their own time. Additional class time is not given for any assignments. Students will be given 3 school days to turn in **makeup work** due to absence(s). It is the student's responsibility to collect makeup work. Upon returning to school, students should collect make up work from me before/after school or before/after class. Students **MUST** email me informing me of their late submissions or improvements for regrading, otherwise the grade will not be updated. Students may boost low grades by improving on art assignments as well as doing extra credit work in the form of **art contests, special projects** and/or **written reports**.

Plagiarism of any kind, copying other students' work, using unauthorized tools to produce work is considered cheating. Students will receive a zero on the assignment(s) along with a P in conduct.

Parents and students must access PowerSchool via HISD Connect and/or by downloading the mobile app to regularly monitor grades and attendance.
