5. New Business

   - Budget moving along; PTO supporting Academics department, but if there is an immediate need, please reach out to Dr. Rivas
   - Staffing Updates: we are 100% staffed; hiring for HB4545 using ESSER Funds
   - IAT/Interventions: Khoa Pham set up website that is maintained with updated information about students and parents have access to view to see student's status.

   - HB4545 Updates: admin is checking with teachers to see who is interested in afterschool or Camp SPARK tutorials to help these students
     - ESSR Funds: Funds allocated for hourly tutors but for the spring, if teachers are interested in conducting after-school or Saturday tutorials, we can discuss those options.
     - Camp SPARK: December 20-21; we have 6 teachers showing interest
   - COVID Updates: we have just 1 confirmed case and Nurse Jordan is notifying those students/parents. Masks are still mandatory.

   - Superintendent's Strategic Plan Survey: we are in the process of choosing a student to serve on the committee

   - Course offerings for next year: Our Senior Physics C class (that offers 2 AP credits) does not seem to have enough students for next year. One option is to do away with that AP course and offer another senior science (academic level) option since currently there is only one option. This would help alleviate our large numbers and better serve our students in that cohort.

   - Performances: still going strong, 50% capacity for each venue and mask are mandatory

   - TRI-M Cords (Voting): Not approved with a vote of 0 For 14 Against
