**Key Action for SPED: Ensure the implementation of High-Quality Instruction (HQI) and appropriate aligned accommodations for Special Education (SPED) students.**

Goals and Priorities: The goal of implementing High-Quality Instruction (HQI) and appropriate aligned accommodations for Special Education (SPED) students will accomplishing the following:

- > Ensure appropriate accommodations for all special education students in all designated content areas.
- > Ensure special education is current and the campus remains in compliance with all district and state deadlines.
- > Increase the percentage of special education students scoring at the Meets level on Math and Reading at grades 3,4, and 5.

**Key Action for HQI: Ensure effective implementation of HQIM through Eureka Math instruction in grades K-5.**

Goals and Priorities: The goals of implementing effective HQIM are to increase student achievement and growth in math by accomplishing the following:

- > Ensuring rigorous math instruction that stretches students developing math skills, as well as those needing acceleration.
- > Establishing a coherency in math teaching and learning across all grade levels that facilitates connected experiences and understandings as students matriculate through each grade level.
- > Increase the percentage of students in Grade 3 scoring at the Meets level on Math STAAR 2024 from 64% to 75%.

**Key Action for Discretionary Item: Utilize PLCs to analyze data, identify trends in achievement, and create plans for intervention.**

Goals and Priorities: The goal of data dives at PLC is to target areas for intervention that will result in higher student achievement. By having a systematic, targeted plan for intervention, staff will be better allocated and time will be used more efficiently.
