Minutes:

School Improvement Plan (SIP) Presentation by Mr. Casquete:

Mr. Casquete presented and explained the School Improvement Plan, covering the Needs Assessments, identified problems of practice, and the process leading to Key Actions.

The presentation included a detailed overview of how an effective implementation of the SIP would be reflected in the 2023-2024 campus grading.

Clarification Questions from SDMC Members:

SDMC Members had the opportunity to ask clarification questions to Mr. Casquete regarding the SIP presentation. Members sought clarification on various aspects of the plan, including methodologies, expected outcomes, and potential challenges.

Discussion and Feedback on SIP Key Actions:

Members actively participated in the discussion of the four SIP Key Actions. Assistant principal, Ms. Chen, provided valuable feedback on campus data and the prospect of Bonner being able to meet the percentage goals by EOY. Feedback was provided on the feasibility, relevance, and potential impact of each Key Action. Concerns and suggestions were discussed to enhance the effectiveness of the proposed Key Actions.

Approval of the 2023-2024 SIP:

Following the presentation, discussion, and feedback, SDMC Members unanimously approved the proposed 2023-2024 School Improvement Plan.

The approval signifies confidence in the plan's ability to address identified needs and improve the overall performance and outcomes of the school.

Closing:

The meeting concluded with a vote of thanks to Mr. Casquete for his detailed presentation and to all SDMC Members for their active participation and valuable feedback. The approved SIP will now be presented to our faculty and staff during the monthly Faculty meeting on November 30th, 2023. Subsequently, the SIP will be implemented for the 2023-2024 academic year, with regular monitoring and updates as needed.

Next Meeting:

The next meeting will be scheduled on, or by February 9, 2024, to review the progress of SIP implementation and address any emerging issues or concerns.
