Dr. Eric Tingle, Principal

- Dr. Tingle explained the STAAR accountability and that focus this year was not just to get students to pass, but looking at the level of passing. State will be focused on the approaches, meets, and masters levels.
- The committee discussed summer school. Concern came up as to why we were moving and not staying on campus. Conversations included space, money, energy/electricity.
- A member of the committee brought up the HISD budget cuts and what those could mean for Tinsley. The budget has not been voted on and each school may have to make cuts to their staffing, whether that be support staff, teachers, or administrators.
- Committee agreed with having grade level awards programs for all grade levels this year.
- Next Meeting will be May 22nd
