Dr. Debra Wright Hudson, Principal

Agenda was presented, and official introductions were made by Dr. Riley. Dr. Hudson was gracious and gave the following as her goals: 1)increase instruction 2)increase our footprint on the community 3) increase capacity of the leadership on the campus.

Items IV and V were tabled in fairness to Dr. Hudson, as she should have the opportunity to create plans that are reflective of her vision. School uniforms were discussed and the decision was made to continue with school uniforms moving forward, although specifics would come in greater detail upon the creation/release of the Student Handbook.

Question and answers were about end of school activities, high school graduation in particular, and Teacher Appreciation week.

The meeting adjourned at 5:23p.
